

The conference will be held **online**, following current instructions from the **Academy Of Management (AOM)**. There will also be online proceedings, allowing you to validate your intervention in the list of your work, while maintaining your publication rights.

We have adapted the modalities of the conference to take into account the current circumstances:

The **fee is lowered to 100€ TTC** considering that it is organized online and obviously no longer includes meals. This rate applies to all the speakers and participants of the Conference over **1 or 2 days**: researchers, professionals, doctoral students and master students.

We will be happy to exchange with you online in June 2021, and we also hope to be able to come back soon, to more convivial forms of conference.

Best regards,
